Academic Affairs

Each student at West Georgia Technical College must be a responsible partner in the learning process and should observe all current published regulations and procedures required by the College and by the program in which he or she is enrolled. Published information may be found in the student catalog, student handbook, college website, or linked from individual course syllabi. A current published regulation will not be waived nor will an exception be granted because a student pleads ignorance of the regulation or asserts that he or she was not informed of a specific requirement by an advisor or by a College staff member.

Students must become especially familiar with the offerings and requirements of their individual majors or programs of study and the content of the semester schedule of classes, which may contain notices of changes in academic regulations or procedures. West Georgia Technical College will make a reasonable effort to keep students advised of any such changes, and information on changes made by the College will be available in the Student Affairs Office. Requirements for programs of study can be found on the College webpage and in the student catalog. Students must be aware that it is their own responsibility to remain informed about current graduation requirements and should speak to an academic advisor for the specific completion requirements of their respective programs.

A candidate for graduation is normally subject to the catalog requirements in effect at the time of initial enrollment. However, in consultation with his or her advisor, a student may elect to satisfy the graduation requirements specified in any of the catalogs in effect subsequent to the time of initial enrollment. Also, a student who is not enrolled for one or more consecutive semesters is subject to the catalog graduation requirements in effect at the time of re-entry.

Academic Advising System

Students admitted to West Georgia Technical College are assigned to the Advising Center for academic advisement. The only exceptions will be Transient and Special Status Students who will be assigned to the Registrar for advisement assistance, high school students who are assigned to a High School Coordinator, and Commercial Truck Driving students who are assigned to program faculty.

Once a student completes approximately 50 percent of academic program progression and completes any needed Learning Support classes, the student will be reassigned to the appropriate faculty advisor for that program. Exceptions to faculty advisor reassignment:

1. Healthcare Science and Healthcare Assistant students will be assigned to the Advising Center until they change their program or are accepted into a degree or diploma healthcare program;
2. Technical Specialist students will remain under the advising services of the Student Advising Center until they transfer or change programs.

Enrolled credit students may access Self Service Banner Web at any time to identify whether they are assigned to the Advising Center or have been transferred to their program faculty advisor. Status or program changes may involve advisor reassignment, so students making such changes should contact the Office of Admissions.

The role of all academic advisors is to assist students in the development of meaningful educational plans that are compatible with their life goals. The ultimate responsibility for making informed decisions about life goals and educational plans rests with the individual student. However, the academic advisor can assist by working with students to identify and assess alternatives and additional opportunities.
An academic advisor’s responsibilities include helping students design a program of study, interpret catalog program information and degree completion requirements, and help students understand academic alternatives. Advisors also monitor academic progress and recommend appropriate resources to answer questions or solve problems related to academic and career matters. They are also valuable sources of information about College policies, procedures, resources, and programs. Students should review academic program information available on the school website prior to visiting advisors and are encouraged to contact advisors early in the semester prior to the registration period for academic counseling.

Academic advisors may be reached via email, phone, advisement kiosk, or in person. Walk-in visits to program Faculty Advisors should be during their posted office hours or to the Advisement Center during posted advisement hours. Advisement centers are available in designated areas on each campus including in the new Academic Resource Center (ARC) located in the Mary M. McLung Library on the Murphy campus.

Course Availability
A listing of semester course offerings at West Georgia Technical College is available by accessing Self-Service Banner Web on the website. The College reserves the right to cancel classes due to low enrollment or other reasons. A full refund is made for any class canceled by the College.

Course Progression
To meet academic requirements, students may not make a grade of D in their program courses, including program-specific electives. (This policy excludes core courses, unless a grade of C or better is required as a prerequisite to other courses.) Students who make a D must repeat the course and obtain a final grade higher than D. The first grade will, however, still be recorded on the transcript. A minimum cumulative grade point average of 2.0 is required for graduation.

To fulfill the academic requirements of all Health Sciences programs, a minimum grade of C is required for progress from specified courses to more advanced courses. In addition, a minimum grade of 75 is required for academic course progression in both the Registered Nursing and Licensed Practical Nursing programs. Students unable to meet the academic requirements for continuation in any Health Sciences program will not be allowed to continue until the requirements are met. Upon completion of these requirements, the student will be allowed to continue when course sequence permits. Students with a second failure of the same occupational course or of any subsequent course in the same program will not be eligible to progress in the program. Students with two academic failures in occupational courses will not be allowed a third attempt. This applies to all occupational courses in the School of Health Sciences except for those occupational courses in the Health Information Technology, Fire Science, Health Care Science, Health Care Assistant, and Nurse Aide programs.

Course Numbering System
Courses numbered 0-0999 are preparatory courses and do not carry credit toward graduation. Courses numbered 1000 and above carry credit toward graduation with the exception of COLL 1000 which applies as institutional credit only. General education courses carrying a course number of 1100 and above (e.g., ENGL 1101) are taught in associate degree programs.
Elective Courses

Program elective courses may be inside or outside the program of study, based on the list of approved electives provided in each program description. Program majors may include three types of electives:

1. Occupational/technically-related electives are those that are relative to the student’s chosen academic major. These electives are generally satisfied by courses found in the student’s academic major area or in a major related to the student’s chosen field of study.

2. General core electives are selected from the general core course offerings available at the award level of the academic program in which the student is enrolled. Degree general core electives must come from degree level academic courses. Diploma level general core must come from diploma level basic skills offerings. However, if a student’s placement score in a particular diploma program meets the degree level, the student may substitute the higher level degree course for the lower level diploma course, depending on compatibility of the course competencies and with registrar approval. For example, if a student’s diploma level program requires ENGL 1010 but the student’s placement score in English is at the degree level (or higher), the student may take the higher degree level ENGL 1101 Composition and Rhetoric course. Diploma level courses cannot be used as electives in degree programs with the exception of open electives specifically listed as “XXXX xxxx” electives.

3. General electives may be satisfied by either a technically-related occupational course or a general education course. When a general education course is used to satisfy this elective, it must be selected from offerings available at the award level of the academic program in which the student is enrolled. Degree general education electives must come from degree level general education course offerings. Diploma level basic skills electives must come from diploma level basic skills offerings. However, if a student’s placement score in a particular diploma program meets the degree level, the student may substitute the higher level degree course for the lower level diploma course, depending on compatibility of the course competencies and with registrar approval (see example in paragraph above).

Learning support courses cannot be used to satisfy any elective requirement. Students should consult with their program advisors before registering for any elective course to ensure that the course selection will meet program graduation requirements.
Grading System

The following grade system is used to report student progress in credit courses:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Nature of Work</th>
<th>Grade Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>(90-100) Excellent</td>
<td>4</td>
</tr>
<tr>
<td>B</td>
<td>(80-89) Good</td>
<td>3</td>
</tr>
<tr>
<td>C</td>
<td>(70-79) Satisfactory</td>
<td>2</td>
</tr>
<tr>
<td>D</td>
<td>(60-69)</td>
<td>1</td>
</tr>
<tr>
<td>F</td>
<td>(Below 60) Failing</td>
<td>0</td>
</tr>
<tr>
<td>WF</td>
<td>Withdrew Failing</td>
<td>0</td>
</tr>
<tr>
<td>I</td>
<td>Incomplete</td>
<td>Not Computed</td>
</tr>
<tr>
<td>WP</td>
<td>Withdrew Passing</td>
<td>Not Computed</td>
</tr>
<tr>
<td>NG</td>
<td>No Grade</td>
<td>Not Computed</td>
</tr>
<tr>
<td>AU</td>
<td>Audit</td>
<td>Not Computed</td>
</tr>
<tr>
<td>EX</td>
<td>Credit by Competency Exam</td>
<td>Not Computed</td>
</tr>
<tr>
<td>TR</td>
<td>Transfer Credit</td>
<td>Not Computed</td>
</tr>
<tr>
<td>W</td>
<td>Withdrew</td>
<td>Not Computed</td>
</tr>
<tr>
<td>AC</td>
<td>Articulated Credit</td>
<td>Not Computed</td>
</tr>
</tbody>
</table>

Learning support courses and COLL 1000 are graded on an A* through F* scale. The following learning support grades are not computed in a student’s institutional GPA but do apply toward the Financial Aid Satisfactory Progress Policy.

<table>
<thead>
<tr>
<th>Grade</th>
<th>No. Range</th>
<th>Not Computed</th>
</tr>
</thead>
<tbody>
<tr>
<td>A*</td>
<td>90-100</td>

<tr>
<td>C*</td>
<td>70-79</td>
<td>Not Computed</td>
</tr>
<tr>
<td>D*</td>
<td>60-69</td>
<td>Not Computed</td>
</tr>
<tr>
<td>F*</td>
<td>00-59</td>
<td>Not Computed</td>
</tr>
<tr>
<td>WF*</td>
<td>00-59</td>
<td>Not Computed</td>
</tr>
</tbody>
</table>
**Grade Point Average (GPA)**

A grade point average (GPA) is calculated by (1) multiplying the credits for each eligible course by the grade points associated with the grade earned, (2) totaling the points earned for all eligible courses, and (3) dividing the total points by the total number of credits attempted in eligible courses. Eligible courses include all courses numbered 1000 and above with the exception of COLL 1000. Grades for courses numbered 0-0099 and COLL 1000 are not included in the calculation of Grade Point Average.

**I (Incomplete)** The grade of I is given to students only in extenuating circumstances. It signifies that a student has not completed all required course work by the end of the semester. Student and instructor must request a grade of I before grades are posted. If the required make-up work is not completed by the end of the first three weeks of the following semester, the I will automatically become an F. If a student received a grade of I in a course which is a prerequisite to other courses, the student must complete the required make-up work to determine the final grade and eligibility to enroll in other courses.

**AU (Audit)** By registering as an auditor, a student is permitted to audit a course/program and attend classes without receiving credit. Students are not permitted to change from audit to credit after the drop/add period or from credit to audit after the drop/add period at the beginning of each semester. Students who audit a class must pay regular tuition and fees for enrollment in any course(s).

**W (Withdraw)** This grade signifies that a student has officially withdrawn by the withdrawal date of the semester.

**WF (Withdraw Failing)** This grade indicates that a student officially withdrew after the withdrawal date of the semester. The WF has zero quality points and is calculated in the grade point average (GPA).

**WP (Withdraw Passing)** The grade of WP is given only to students with extenuating circumstances. This grade indicates that a student was passing when he or she officially withdrew after the withdrawal date of the semester.

Transcripts and grade reports contain two grades for each occupational course. The first grade is the letter grade assigned for academic work and skill development in the course. The second grade reflects the work ethics of the student in the course. (See section on Work Ethics.)
## Attendance

Students are expected to attend each scheduled class. Absences and tardies will become a part of the student’s record through the work ethics grade (detailed in the catalog section on Work Ethics Procedures). It is recognized that there may be times when a student will not be able to attend class. In such cases, it is the student’s responsibility to make arrangements with the instructor concerning the availability and completion of making up work missed. All make-up work will be at the discretion of the instructor, under the guidelines of the work ethics policy and procedures and consistent with classroom procedures established in the course syllabus.

Students receiving financial aid (especially Pell, WIA, or VA) should be aware that absences could jeopardize their financial aid funding and satisfactory academic progress. Students may not receive financial aid funds if they do not meet the attendance requirements of the financial aid agency.

A student will be dropped from a course in which the number of his or her absences, whether excused or unexcused, exceeds 20 percent of the total number of course meetings in the semester unless prior approval is given for extenuating circumstances, according to the following guidelines:

<table>
<thead>
<tr>
<th>Fall and Spring Semester</th>
<th>Will be dropped if absences exceed</th>
</tr>
</thead>
<tbody>
<tr>
<td>Number of course meetings per week</td>
<td>1</td>
</tr>
<tr>
<td></td>
<td>2</td>
</tr>
<tr>
<td></td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>4</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Summer Semester</th>
<th>Will be dropped if absences exceed</th>
</tr>
</thead>
<tbody>
<tr>
<td>Number of course meetings per week</td>
<td>1</td>
</tr>
<tr>
<td></td>
<td>2</td>
</tr>
<tr>
<td></td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>4</td>
</tr>
</tbody>
</table>

If there are extenuating circumstances, the teacher’s discretion will be considered in the final decision for an exception. The grade of withdraw passing (WP) or withdraw failing (WF) will be assigned after the withdrawal date of the semester. The grade of WP is given only to students with extenuating circumstances.

Health Sciences programs and all courses with a significant virtual learning component have attendance guidelines specific to those methods of instructional delivery. These guidelines will be detailed in individual course syllabi and in program handbooks in these program areas.

Online Courses: Online students must complete an academically related activity each week to be considered active. Simply logging into class is not considered active. Academically related activities include, but are not limited to, submitting an academic assignment; taking an exam, an interactive tutorial, or computer-assisted instruction; participating in an online discussion about academic matters. A student will be dropped from an online course if his/her absences exceed 20 percent of the number of weeks allocated for the course (absences do not have to be consecutive).

Hybrid Courses: Absences in hybrid courses may not exceed 20 percent of scheduled on-campus classes or 20 percent of the total contact hours for the course.
Work Ethics Procedures

The Technical College System of Georgia and WGTC believe it is extremely important to identify, evaluate, and encourage good work habits as an integral part of the instructional program. Therefore, a system to evaluate “work ethics” in each course has been developed. Work ethics grades (3, 2, 1, 0) are earned in each completed credit hour course and are included on the student’s permanent record and transcript.

Characteristics

The following work ethics characteristics are emphasized:

1. Attendance
2. Character
3. Teamwork
4. Appearance
5. Attitude
6. Productivity
7. Organizational Skills
8. Communication
9. Cooperation
10. Respect

Throughout the semester consistent emphasis is given to each of these characteristics or traits. Periodic presentation by each instructor is provided through a brief lesson, exercise, or activity featuring the trait which may be introduced in classes or labs.

Grading

Work Ethics grading is performed “by exception” indicating that the majority of students receive a work ethics grade of 2 (meeting expectations). Instructors record a grade for students who display either poor work ethics or exceptional work ethics behaviors by adding to or subtracting points from the grading of the respective work ethics trait. Instructors must document work ethics performance of all students and provide a plan of improvement and a review date for those students who display poor work ethics. The follow-up review date provides an opportunity to re-evaluate performance before a final work ethics grade is assigned.

There are two formal reports—the Mid-Semester Report, a progress report given to those students who need an opportunity to improve, and the Final Report, a semester work ethics grade to be displayed on the student’s academic record.

Evaluation Process:
3 points = Exceeds expectations
2 points = Meets expectations
1 points = Needs improvement
0 points = Unacceptable

NOTE: The work ethics credits do not count toward graduation requirements or in calculating eligibility for financial aid but may affect employment opportunities.

Excused Absences

No points are deducted from the attendance portion of the work ethics report if the student must be absent under any of the following conditions and follows the outlined procedures:

1. Jury duty (prior notification of instructor with written proof).
2. Death of immediate family member (mother, father, sister, brother, spouse, or child; notify instructor during the first day of absence with maximum of three days excused).
3. Court summons (prior notification of instructor with written proof).
4. Military duty (prior notification of instructor with written proof).
5. Job interview (prior approval of instructor and a job interview verification form to be signed by the employer—may be obtained from the job placement specialist).
6. Doctor’s official work/school release form (completed and signed by attending physician and provided for the instructor the first day of return; a maximum of three days in a given semester will be excused for medical reasons, but only with proper documentation).

**NOTE:** Students are expected to follow individual instructors’ make-up policies, and the excused absences outlined above are only considered when assessing your attendance grade for work ethics. The absences are still counted as part of the total allowable 20% of course absences. Absences above 20% of the total number of course meetings will result in the student’s withdrawal from the course unless prior approval is given for extenuating circumstances. (See individual course syllabi for attendance guidelines for Health Sciences programs and for online or hybrid courses.)

**Academic Honors**

The College recognizes the following academic honors for students enrolled in credit programs:

- **Honor Graduate** – These graduation honors are awarded based on the cumulative grade point average, in the following categories: Highest honors (3.9-4.0 GPA), High Honors (3.7-3.89 GPA), and Honors (3.5-3.69 GPA).

- **President’s List** - Students achieving a 4.0 grade point average for the semester.

- **Dean’s List** - Students achieving a grade point average of 3.5 to 3.99 for the semester.

Names of qualifying students are acknowledged on the College website.

**Satisfactory Academic Progress**

Students are considered to be in good standing and making satisfactory academic progress if they maintain a semester GPA of 2.0 or higher. A cumulative GPA of 2.0 or higher is required for graduation. This designation appears on the semester grade report and the official transcript. Students who earn a GPA of less than 2.0 for a semester are placed on academic probation. Additional information about SAP is included in the Financial Aid section of the catalog and in the student handbook, both available on the college website and also linked from each course syllabus. Additional information about Academic Probation and Suspension is included in the Registrar Services section of the catalog.

**NOTE:** Students enrolled in the Health Services programs should refer to the specific academic requirements for these programs.

**NOTE:** Health Sciences students who fail to earn a program defined satisfactory grade in any course required for their selected program of study may repeat a course one time only. Students with a second failure of the same occupational course or of any subsequent course in the same program will not be eligible to progress in the program. Students with two academic failures in occupational courses will not be allowed a third attempt. This applies to all occupational courses in the School of Health Sciences except for those occupational courses in the Health Information Technology, Fire Science, Health Care Science, Health Care Assistant, and Nurse Aide programs. (See Course Progression)
Academic Integrity

West Georgia Technical College encourages an academic culture of honesty and personal integrity among its faculty, staff, and student body. Academic integrity is defined by the Center for Academic Integrity as “a commitment, even in the face of adversity, to five fundamental values: honesty, trust, fairness, respect and responsibility.” In this context, academic honesty means performing all academic work without plagiarizing, cheating, lying, tampering, stealing, receiving assistance from any other person or using any source of information that is not common knowledge (unless authorized by the instructor). The work of another person represented as one’s own is dishonest and does not fairly measure the competence, knowledge, and achievement of the individual. Academic dishonesty is contrary to the standards, ethics, and goals of higher education and is unacceptable in the technical college community. West Georgia Technical College promotes and expects each member of the College to conduct himself or herself with professional behavior and intellectual integrity.

Prohibited behaviors include, but are not limited to, the following:
- Plagiarizing any assignment. “Plagiarism” means using someone else’s ideas or words without using quotation marks and/or giving credit by citation of source(s).
- Copying/submitting another person’s work.
- Unauthorized taking of someone else’s work.
- Using unauthorized notes or equipment (including programmable calculators) during an examination.
- Stealing an examination or using a stolen examination.
- Allowing another student to have access to your work, thereby enabling that student to represent the work as his or her own.
- Having someone else take an assessment in your place.
- Fabricating information such as data for a lab report.
- Falsifying a patient’s medical record or a student’s clinical record.
- Using another person’s personal electronic file or copying another student’s computer program.

Depending on the severity of the situation, any student found to be in violation of any of the above prohibitions will be subject to a range of disciplinary actions, which may include the following:
- A zero for the assignment
- An F for the course
- Dismissal from the program
- Dismissal from the College

In addition, copyrighted material may not be knowingly copied or included in student submitted material or for personal benefit in violation of copyright laws or regulations without the written consent of the copyright owner(s) or a duly authorized agent(s). Academic Integrity policies including violations and permitted usage of copyrighted materials are outlined in the Student Code of Conduct available to students in the Student Handbook.

The Student Code of Conduct (see the Student Handbook) is enforced for traditional, hybrid, web-enhanced, and online classes.
Academic Overload
An acceptable course load will vary depending upon the academic program and courses taken. Please contact your advisor to make an informed decision about a reasonable course load when working full- or part-time.

Students wishing to register for more than 18 credit hours in any semester must obtain prior approval from the Dean of the School in which the student’s program is included. In general, a student must have been at West Georgia Technical College for at least two semesters and have achieved an overall GPA of at least 2.5 before an overload will be approved.

Online Learning
Types of Courses
The following terms describe the delivery methods of online courses offered at West Georgia Technical College:

- **Online**—A course in which all instruction occurs online, and testing may occur online or in a proctored environment.

- **Hybrid**—A course in which 25-50 percent of the learning activities are conducted online. Traditional class meeting times will vary within these guidelines, depending on course content and instructor discretion. Meeting times will be predetermined and specified in the semester class schedule.

- **Web-enhanced**—A traditional classroom course that uses the Internet as a component of the course. That component supports classroom instruction and may require students to use the internet in order to interact with one another and the instructor, do research, complete and/or submit assignments, or take tests.

Requirements
The content, assessments, and student learning outcomes of online courses are of the same content, instructional quality and rigor as those of hybrid or web-enhanced courses. The primary difference is that online courses offer students an alternative form of course delivery that is more flexible and convenient than hybrid or web-enhanced courses. As a trade-off, however, online courses require a greater time commitment than hybrid or web-enhanced courses. Students who take online courses need strong skills in studying, time management, Internet navigation, and reading comprehension to be successful. Individual courses may require additional specific skills, such as proficiency in word processing. Following instructions, working independently, and submitting assignments by due dates are an important part of online learning. Students must have frequent access to a computer (preferably at home) and a reliable Internet provider as some providers are not compatible with the online platform. (For more information on appropriate providers and online requirements, see our Online Learning web page.)

It is not recommended for students in provisional status to register for online courses. Learning support and online courses are both demanding, and trying to do both decreases a student’s chance of academic success. Students enrolled in learning support reading courses cannot register for online courses. Students who failed or withdrew from a specific course or provisional students who fail to meet minimum assessed proficiency requirements for a course will not be allowed to take that course online.
WGTC supports the choice of students to take online courses from the institution of their choice and participates as a National Council for State Authorization Reciprocity Agreements (NC-SARA) approved institution. The State Authorization Reciprocity Agreement (SARA) is an agreement among its member states, districts and U.S. territories that establishes comparable national standards for interstate offering of postsecondary distance-education courses and programs. It is intended to make it easier for students to take online courses offered by postsecondary institutions in a state other than the one where they reside.

Library Services
The Library serves as a central location for many needed college-wide academic resources. A library is located on each campus (Carroll, Coweta, Douglas, LaGrange and Murphy) to support the curricular, professional, and personal development needs of the WGTC academic community. The library staff works closely with the faculty, administration, and students to acquire and make accessible a well-balanced collection, in a variety of formats, to support the college’s instructional programs and adult learning center.

The collection at each site will consist of books, periodicals, newspapers, videos, audio cassettes, software, and other multimedia and electronic reference resources (respective of curricula and service needs). A daily courier service exists allowing for timely exchange of materials between sites. Each site houses a computer lab, offering software applications which are closely aligned to college programs. Collectively WGTC libraries share a vision of providing a leading model of the “virtual” library. The commitment to open access for resources, services and information needs is met by combining on-site collections of current materials in print and electronic form (Galileo) along with remote access to content and services of the worldwide library and information resources.

West Georgia Technical College acquires current, authoritative, and relevant materials and journals that support student learning outcomes for all instructional areas and academic departments at the degree, diploma, and certificate level. Emphasis is also placed on acquiring materials and providing services to ensure availability of adequate resources that directly support the general education programs. In acquiring new materials, the Library includes the continuing education and personal enrichment needs and interests of student, faculty, staff, and public users.

The Mary M. McClung Library, located on the Murphy Campus, has been recently redesigned to provide a more centralized and open learning area to provide easier access to academic and support services for students. The newly opened Academic Resource Center (ARC), located in the library provides new meeting, lab, and supplemental instructional areas with up-to-date technology for individual and group student usage. In addition the Murphy advisement center has been relocated to the ARC. Future ARC locations are in consideration beginning with plans to open a new location in the Coweta library in 2017.

Academic Support Services
West Georgia Technical College is committed to enhancing academic performance for all students. Resources are available at all campuses to stimulate academic achievement and include learning resource labs, tutoring, academic workshops, on-line tutorials, academic coaching and the Mentor Connection program. These services are free for all WGTC students. The Student Academic Success website at http://www.westgatech.edu/Academics/SSS/Student_Success.htm provides current information and a listing of available resources. For more information, please contact Academic Support at 706.756.4678 or wgtcsuccess@westgatech.edu. The following resources for academic support are offered to all students studying in credit program areas:
**College Success (COLL 1000)** is a two-credit course designed to assist students to develop effective study skills, become acquainted with the programs and services of the College, and adjust to life as a college student. COLL 1000 is required for any student who, upon taking the admissions placement exam, is required to enroll in two or more learning support courses, or for any student readmitted after academic probation. COLL 1000 carries institutional credit only and does not enter into the calculation of GPA.

**Learning Resource Labs** available on each campus include a computer lab equipped with instructional software and a tutoring area for all levels of English, math, and other subject areas. Resource labs provide standard software including internet access for virtual learning and coursework completion. The learning resource lab in the ARC on the Mary McClung Library on Murphy also has a smart board with audiovisual delivery capability.

**Tutorial Services and Supplemental Instruction Courses** are provided free of charge to students enrolled in credit courses on all campuses and also are available to MOWR students taking WGTC courses at external instructional sites. Tutoring services are offered at convenient times throughout the semester and are also available through the Upswing online tutoring platform. A basic computer literacy tutor is also available for students enrolled in COMP 1000 classes. In addition, students may access online tutoring services that may be linked from the student’s online course learning platform or directly from the school website. Supplemental instruction currently is provided in the areas of Math, Writing and Accounting. Information on tutoring services and supplemental instruction can be found on the College website or by contacting academic support at wgtcsuccess@westgatech.edu.

**The Mentor Connection program** is built on the philosophy that the personal connection between a mentor and student will support student self-advocacy leading a determined student to graduate from West Georgia Technical College. The positive connections that students make at the College foster the creation of a safe and comfortable learning environment. Students can apply to participate in the mentor program through the college website or by contacting academic support at wgtcsuccess@westgatech.edu.

**Academic Resource Center (ARC)** is housed in the Mary M. McClung Library on the Murphy Campus. The ARC will provide advisement staffed by a full-time advisor and tutoring services as well as available space for small meetings for student organizations or for group study collaboration. The ARC also contains a learning resource lab with a smart board and audio/video connectivity that can be used for tutoring and group meetings. The ARC is designed to provide easy access to students in a centralized, service oriented, and learning conducive atmosphere. Future ARC location expansion is planned for other campus libraries beginning with Coweta Campus in 2017.

**Learning Support**

The Learning Support Program at West Georgia Technical College serves students who are in need of academic assistance. It includes learning support courses designed to improve students’ basic abilities in the areas of English composition, mathematics, and reading skills. These courses, designated by course number 0090, 0998 or 0999, carry institutional credit and may be taken prior to enrollment in credit courses or in combination with credit courses, depending on a student's admission status.

Students required to take learning support courses must take those classes each semester until they have fulfilled the requirements. Students taking MATH 0090 are required to take a diagnostic exam at the beginning of each semester enrolled in the course to determine the competencies and objectives requiring mastery for satisfactory completion of the course.
Learning support courses will be covered by Title IV assistance if the student is enrolled as a provisional admit student in an eligible program at West Georgia Technical College and the learning support course is required by the College.

Grades received for learning support courses are counted in the HOPE Scholarship GPA calculation. All learning support courses are included in the 67 percent hours attempted completion rate.

**Learning Support Courses Over Five Years Old**
Learning support courses over five years old must be repeated unless the student presents acceptable placement test scores less than five years old. Students with exam scores over five years old must take the Accuplacer placement exam for reevaluation of program status.

**Independent Study**
Upon the recommendation of the instructor and advisor and with approval of the appropriate academic dean, a course may be taken as an independent study. Independent study will be allowed only under extenuating circumstances in which a course is not available through a normal schedule or will not be offered in the subsequent semester. A student must have a GPA of at least 3.0, as verified by the Registrar, in order to take a course as independent study. A student may not take through independent study a course in which he/she has previously received a grade of D, F, W, WP, or WF. Courses used as electives will not be offered as independent study. Final approval is given by the Assistant Vice President for Academic Affairs and is dependent upon the student’s having met all requirements outlined in the independent study request. Students wishing to request independent study should contact their advisor the semester before the course is needed in order to begin the process.

**Study Abroad Program**
The Study Abroad program provides WGTC faculty and students the opportunity to visit other countries to explore technical/vocational curriculum and develop joint student projects. The participants will gain first-hand experience of the cultural environment and an understanding of how other people live and work while completing academic assignments to earn college credit. For more information, email studyabroad@westgatech.edu.

**Institutional Course Exemption**
For students with previously acquired knowledge and skills, course credit may be obtained by demonstrating mastery of the subject through written and/or performance tests. Exemption examinations are available for several, but not all, courses at West Georgia Technical College. Courses currently available for exemption course testing includes: ALHS 1011, ALHS 1040, ALHS 1090, COMP 1000, MATH 1012, MATH 1013, ECCE 1101, MKTG 1100, FRSC 1121, FRSC 1132, FRSC 1141, FRSC 2130, and FRSC 2141. Students should contact the divisional Academic Dean of the program area for specific information concerning course exemption availability.

The following procedures for course exemption exams are to be followed:

1. Student must be accepted or currently enrolled as a credit student at West Georgia Technical College and must take the exemption exam prior to enrolling in the course unless the course was previously passed and has expired for program eligibility. (Exemption exams may be taken only once.) The student must have also met the prerequisites for the course. Students enrolled in Learning Support courses may not request exemption from a subsequent course in that area.
2. No later than the withdrawal date of the semester in which the exemption exam is requested, student meets with program chair to request an exemption exam. Program Chair explains the exemption process, gathers information from the student to determine eligibility, and upon verification of eligibility, provides the request form to the student to begin the process.

3. Upon form completion, the Program Chair recommends the student for exemption testing, signs form, and forwards the form to the appropriate Academic Dean for final approval/denial.

4. Academic Dean contacts the student and assesses evidence to determine if prior education, training, or work experience is similar to that of the course being considered. Dean checks for completion, collaborates with the Program Chair, and signs and returns form to student if recommended for testing.

5. Student presents signed Exemption Exam Request form to the campus cashier for fee payment. Cashier checks to be sure form has been signed by both the Academic Dean and Program Chair. The exemption exam fee is 25 percent of the regular tuition credit hour rate (fee is nonrefundable and is not covered by financial aid).

6. Student presents Exemption Exam Request form and photo ID to exam proctor at scheduled time of exam, on predetermined campus. Failure to arrive at designated time generally results in fee forfeiture and loss of test appointment.

7. Student completes exemption exam. Student must receive minimum score of 80% to be awarded exemption credit.

8. The Dean of the appropriate school submits official exam score to the Registrar for academic recording.

9. Registrar notifies the student of exemption exam results by mail and student email.

10. If the student has passed the exam, the Registrar records the grade as EX on the student’s transcript. (EX grades are not included in the calculation of the student’s grade point average.)

11. No more than 6 credit hours may be earned by course exemption.

Internship

The internship program provides related work experience in a student’s program of study prior to graduation. Internship is an option as an elective or as a required part of several diploma and degree programs. It is taken upon completion of prerequisites and with program advisor approval. The student, employer representative, and internship coordinator (course instructor) are required to sign a three way agreement attesting to agreement of their responsibilities involving the internship/practicum. Students must understand that a large portion of their grade is determined by an external business entity and should see their faculty program advisors for more information.

Student Right to Grade Appeal

A student who wishes to contest a final course grade must first institute an informal appeals process through the instructor who awarded the grade or made the decision. A student must make every effort to resolve the appeal through initially contacting the instructor by phone, email, or personal visit before filing a formal appeal. The appeal must be filed within two weeks from the date that the student learned or reasonably should have learned of the grade.

If consultation with the instructor does not resolve the appeal, the student may appeal to the Academic Dean of the school in which the course was taught by filing a written request for review. (Forms for the appeal may be requested from the Office of Academic Affairs, the Academic Dean, or downloaded from the college website.) The written appeal must state the class in which the grade was received, corresponding semester, grade received, the instructor of the class, response from corresponding with the instructor; the reason for the appeal, the action requested based on the appeal, and student contact
information. This request must be filed within four weeks from the date that the student learned or reasonably should have learned of the grade.

The Academic Dean will respond to the student within two weeks of receiving the written request. If the student is not satisfied with the Dean’s decision, the student may appeal in writing to the Vice President for Academic Affairs within two weeks of receiving the Dean’s decision. The Vice President will respond to the student’s request within one week. The decision of the Vice President for Academic Affairs shall be final.

The College assures that a student will not face retaliation for filing a grade appeal.

The above appeal procedures do not apply to Student Code of Conduct alleged offenses or equity issues (i.e. race, age, national origin, or gender discrimination.) See the Non-Discrimination Policy and Grievance Procedure section of this catalog for an explanation of other grievance procedures or the Student Handbook for Code of Conduct procedures.

**Associate Degree Testing Requirement**

Students finishing associate degree programs must complete a general education competency assessment (ETS Proficiency Profile) during either the last semester or the next-to-last semester prior to graduation. The assessment includes items that measure four core skills areas: critical thinking, writing, reading, and mathematics. Unless otherwise provided for in an individual program, no minimum score or level of achievement is required for graduation. The general education assessment is administered during the fall and spring semesters on all campuses and for online programs to accommodate all graduating students.

Students may also be asked to participate in one or more satisfaction surveys designed to measure institutional effectiveness. Participation in testing and surveys may be required for all students, students in selected programs, and for students selected on a sample basis.

**Licensure Programs**

Certain programs are designed to satisfy the educational requirements for licensure examinations. However, the licensing board may change these requirements prior to the completion of the course of study. While reasonable efforts will be made to enable students to satisfy additional requirements, no assurances can be made that the College will be able to offer these additional courses or, if taken, that such courses will entitle students to take or pass licensure examinations.

**Embedded Certificate/Diplomas**

Any student enrolled in a diploma/degree program will be recorded as a graduate of a lower level program (diploma, TCC) when the following conditions have been met:

- Student has met all of the admissions requirements for the diploma/TCC.
- Student has successfully completed all coursework for the diploma/TCC.
- The College chooses to award a diploma/TCC with acknowledgement or notification to the student.

Data recording practices must represent an accurate history of student participation in programs. Students formally enrolled in a major will remain in that major until they formally change majors, graduate from that major, or leave the College. They may, however, simultaneously receive awards for diplomas/TCCs for which the requirements have been met.
**Intellectual Property**

The College encourages the development, writing, invention, or production of intellectual property designed to improve the productivity of the College or to enhance the teaching/learning environment.

Intellectual property includes, but is not limited to, any copyrightable subject matter or material(s), patentable inventions, online courses, computer software or materials, or works of art that might be normally developed on a proprietary basis. Intellectual property also includes the common meaning, definition and description of intellectual property as established by the Copyright Act (Title 17 of the United States Code). Intellectual and creative works that can be copyrighted or patented, such as literary, dramatic, musical and artistic works, computer software, multimedia presentations, inventions, etc., are “intellectual property.”

Unless otherwise provided in a separate agreement, the College owns all rights to a copyrightable or patentable work created by the employee or student with College support. The ownership of a copyright or patent resulting from the development of intellectual property and any rewards or recognition attributed to the copyright or patent will be determined according to the following conditions:

Ownership resides with the employee or student if the following criteria are met:
- The work is the result of individual initiative, not requested or required by the College.
- The work is not the product of a specific contract or assignment made as a result of employment or enrollment with the College.
- The work is not prepared within the scope of the employee’s job duties or course/program requirements.
- The work is not completed using equipment or resources provided by the College.

Ownership resides with the College if the above criteria are not met and/or if the following criteria apply:
- The work is prepared within the scope of the employee’s job duties or course/program requirements.
- The work is the product of a specific contract or assignment made in the course of the employee’s employment or student’s enrollment with the College.
- The development of the work involved facilities, time, and/or other resources of the College including, but not limited to, released time, grant funds, College personnel, salary supplement, leave with pay, equipment, or other materials or financial assistance.
- Ownership refers to a legally binding agreement specifying the named party or parties to whom the intellectual property belongs and who will be attributer as the owners of the intellectual property in the general public.
- College resources include, but are not limited to, offices, computers, standard office equipment and supplies, libraries, labs, funds, and personnel.
