

ASGI: Automotive Chassis Technician TCC (replaces 5CVI: Automotive Suspension and Steering Technician and 5CUI: Automotive Brake Technician in the Quarter System)

The Automotive Chassis Technician Specialist certificate program provides students with skills needed to enter the automotive industry as an entry level chassis technician. Topics covered include shop safety; basic electrical/electronic theory and diagnosis; chassis components and types; steering system components and service; alignment theory and procedures; and brake system operation, diagnosis, and repair.

Career Opportunities

Graduates may find employment as automotive front-end technician apprentices, technician's helpers, suspension maintenance technicians, or general brake services technicians.

Credit Required for Completion: Minimum of 15 credit hours
