

EMS – EB71: Emergency Medical Responder TCC (new)

The Emergency Medical Responder certificate program prepares students to initiate immediate lifesaving care to critical patients who access the emergency medical system. This individual possesses the basic knowledge and skills necessary to provide lifesaving interventions while awaiting additional EMS response and to assist higher level personnel at the scene and during transport. Emergency Medical Responders function as part of a comprehensive EMS response, under medical oversight. After successful completion of an SOEMST approved EMR program the graduate may take the National Registry of Emergency Medical Technicians EMR certification examination.

Career Opportunities

Graduates of the program are prepared for entry-level positions in emergency medical services professions in a variety of pre-hospital, industrial, and first responder settings.

Credit Required for Completion: Minimum of 11 credit hours
