

## MC4I: Medical Coding TCC (replaces DGPI: Medical Coding in the Quarter System)

The Medical Coding certificate program provides a basic short-term academic credential with potential for future program credit. The curriculum provides advanced training in coding skills for persons wanting to progress in their occupations or who want to prepare for full-time or part-time employment in the medical field. The Medical Coding Technical Certificate of Credit program provides basic training in anatomy and physiology, medical terminology, and medical procedural and physicians' procedural coding skills.

### **Career Opportunities**

*Graduates of this program may find employment as medical coders in a medical office.*

### **Credit Required for Completion: Minimum of 24 credit hours**
