

# Georgia County Internship Program

## *Get involved in County Government*

The Georgia County Internship Program (GCIP) connects undergraduate, graduate students and recent graduates with Georgia county internships. The program provides students with opportunities to intern in various county departments throughout the state for a hands-on understanding of the inner workings of county government. The Georgia County Internship Program is a partnership of the Association County Commissioners of Georgia (ACCG) and the Atlanta Regional Council for Higher Education (ARCHE).

### Program Requirements

- Students must commit to work a minimum number of hours per week internship period established by the county.
- It is the responsibility of the student to meet the specific internship requirements for their degree program, if they want to receive academic credit.

### Who Can Apply

- GCIP is open to all undergraduate juniors and seniors, all graduate students, and recent graduates.
- Please apply online at [www.georgiacountyinternships.org](http://www.georgiacountyinternships.org)

### Examples of Projects & Assignments

- Design or update county website
- Provide talent or content for public access channel programs
- Update and create county guidebooks, such as a personnel guide
- Prepare studies and reports on various county department programs
- Prepare GIS mapping and programming
- Create databases and develop templates
- Assist with budget projects and preparation
- Develop record management tools
- Coordinate a river clean-up program
- Write press releases
