Membership

Members of the local Boards of Directors are appointed by the State Board of Technical and Adult Education. The President of the Technical College recommends appointments and re-appointments after polling local business and industry leaders for suggestions.

Local Boards have at least seven and not more than seventeen members. Members must reside or be employed within the College's designated service area and within the county they represent. All counties in the service area must be represented by at least one Board member. Members are chosen to reflect the diversity of business, industry and economic development interests within the service area. The State Board considers minority and female representation in making appointments to local Boards of Directors.

At its June meeting each year the State Board appoints or reappoints local Board members to fill expiring terms or to serve three-year terms beginning July 1. No local Board Director will be appointed to serve more than three consecutive three-year terms. Local Boards are to notify the State Board immediately of any vacancies in unexpired terms, and the State Board will appoint a new member to serve the remainder of the term.
